WEATHER ACTED AGAINST THE MATURING CROPS.

News From the Northwest Indicates a Falling Off in the Wheat Crop. Corn Ruled Firm.

Chicago, September 9 .- Grains acted bullishly today. The often predicted big movement of wheat Northwest failed to appear ment of wheat Northwest failed to appear, the weather worked against the maturing corn and stocks of grains generally were deconditions and more outside business developing, the built view of the market spread, and after dips closed firm, Sept. 10.47½ 10.52½ 10.47½ 10.47½ 10.52½ tember wheat %c up December 1465% high-conditions and more outside business developing, the built view of the market spread, and after dips closed firm, Sept. 10.47½ 10.52½ 10.47½ 10.47½ 10.57½ tember wheat %c up December 1465% high-conditions and more outside business developing.

Wheat paused a moment early to the trading before making an end of the bearlish market that has prevailed for several
days. The cause was probably the dip in
cern. Soon, however, several good buil
arguments were considered and althorigh at
no time was the buil movement strong, yet
the session ended with good advances.
Cables were unexpectedly firmer, and the
hig receipts heralded for the Northwest
dwindied down to insignificance when the
figures were put on paper. A leading clevator bouse started a good buying move
ment and gradually most of the crowd followed after. Statistics were somewinhullah. The news from the wheat cropshows a decrease of 3,280,000 bushels; receipts are still running much under last
year's figures, although locally there was
an improvement today. The world's visible supply increased 5,280,000 bushels but, all told, there were only
lowed after. Statistics were somewinthat granter. There was some disposition to
that quarter. There was some disposition to
sell May, but he spite of the fluil spots in
the market the general sentiment favored
buying and was augmented late in the day
by an excellent expect demand. The
weather in the spring country, which is yet
innoch of a factor, was favorable. September started with lower, at 71 to 6%, reactive repairs of 1215 cores negative the services and 1701 awer ago.

ment, although it reported some improvement in the crop in sections but on a whole was a strong supporting feature to the market. Exporers still compilain of slack demand for spots, although New Orleans showed large sales today, 5200 bates at full quotation, with factors asking I-ld over the market. The movement continues to increase, means doubte last year's being reported.

to increase, maris double last year's being reported.

New York closed 12 to 16 up. New Orleans 11 to 14 up. Spots unchanged in all markets.

There is no reason why cotton should sell below prevailing prices at any time this season, unless the South continues to rush spots ento a market that will only take the usual movement it always has been and stways will be a fight between the producer and the consumer, and so long as either has the whip lash he is going to use it. Let us have a few days of light receipts, and we would see a demand that would almort every hale of cotton in sight.

Liverpeol is sine to be 2.64d higher to-morrow.

Richard Cocke & Co.'s Letter. Houston, Texas, September 9 - The week g Westher report, bassed today is, in our pinion, a very bullish arricle, while opinion. a very bullish article, while it open is of some improvement by rains it is offset by the damage to open cotton. If the bureau-report is anywhere near right, curren is a purchase at present prices and the improvement today in Liverpool, both in spots and contracts, shows that they realize the condition. Mr. Price has not altered his opinion and is doing all he can to stem the hear raid.
